STAKE RACES AT LONG BRANCH.

THE CAMDEN AND EATONTOWN TO BE DECIDED. A lively programme will be run off at Monmouth Park to-day, including the Estontown Stakes, in which Raceland, Aurelia, Little Minch, Bradford, Fitzroy, Lady Primrose, Eurus and others will meet at a mile. This will be a stirring battle. Some turfmen say that Raceland is lame and shows signs of giving way. Others insist that he has not had work enough. day's running should clear up the matter. horse is seriously amiss his trainer. Ortflamme will run in this race for the first time in nearly three months. The Bard's condition yesterday was little changed

from Saturday. It is not yet plain that his lameness is likely to be lasting.

Porter Ashe's horses are nearly all siling or lame, and he intends to take them back to California soon, but Flood Tide may stay here to keep his engagements.

ELKWOOD WILL RACE NO MORE. HOPELESSLY LAME -THE ENTRIES FOR TO-DAY A

SARATEGA.

Saratoga. Aug. 6 (Special).—To-morrow will be the seventh regular day of the meeting, with the Kearney Stakes as the attraction, which, however, has but four starters, as all the class horses but two that were enstarters, as all the class horses but two that were tered are in hospital. Elkwood is how in a bad way, his near forceg being enormously swellen. Dr. Sheppard has been summoned to examine it. Hopes were at first entertained that the horse might be got for the Citizens' Stakes, at Baltimore, but ready for the Citizens' Stakes, at Baltimore, but the middle tenden has given way and Elkwood has run his last race. The report that Mr. Gratt won a large sum on Elkwood is not true, as every one connected with the stable expected him to break down, and his owner did not venture a penny on him. But the Dwyers, on the contrary, backed him so well for place that they won more than the value of the stake.

Mr. Wheatly put 127 pounds on Terra Cotta, which was prohibitive, and Montrose will carry the top weight to-morrow. Whether he can give Oarsman 18 pounds is a question which is causing much discussion and made the betting between the participant. is a question which is causing much discussion and made the betting between the partisans of each very heavy. After the first pools were sold, Royal Arch and Argo were left out. The betting was even between the pair, each bringing \$500. Although Oarsman has won twice with low weight, the time has been moderate, and if the track is not too heavy to-morrow, Montrose will outrus him.

For the first race, Queen of Trumps may win, with Bootmaker or Alaho second.

Second race—Wary should win and Daruna may get the place.

ARRANGING FOR A YACHT CLUB CRUISE. NEW-LONDON, NEWPORT AND THE VINEYARD TO

BE VISITED-BOATS OF MANY KINDS. The arrangements for this year's cruise of the New-York Yacht Club have been completed with the exception of the points to be touched. It is certain that from New-London the fleet will make for Newport, but the programme after that will only be de-cided at the meeting on board the flagship Electra

to-morrow evening. It is almost certain, however that the cruise will be extended so as to include the Marbiehead regatta of the Eastern Yacht Club. If be done, the cruise will cover a period of about two weeks. Commodore Elbridge T. Gerry has reappointed Gouverneur Kortright fleet-captain, a fact which has

been learned with gratification by the club-members. Of the Commodore's General Orders, No. 2, the foilowing are the salient points:

The vessels of the squadron will rendervous at New-London, off Pequot House, on Wednesday, August 8.
 Captains will report aboard the flag-ship on the same evening at 9 o'clock.

Special attention is called to the race for the cup presented by Captain Goelet, which will take place at Newport, and also to the race for the cups presented by the Martha's Vineyard Club, to be salted for off Oak Biuffs. The dates for these races to be fixed at the above meeting

The flag officers announce their intention of presenting a cup for each of the eleven classes, to be known as the "Squadron Cruise Trophy," and to be sailed under the New-York Yacht Club racing rules and allowances only on the runs from port to port en day, when there are no other races. The yacht in each class maying the best average record at the end of the cruise to be entitled to the trophy, which will be of silver, and

cimilar in each class. During the cruise the Owl and the Gamecock colors, with the accompanying challenge cups, will be raced for by the gigs and double-scull cutters and dingles belonging to the yachts of the squadron, and the hader will be subject to challenges at any time, on one day

There will also be a race for the steam and naphth. launches belonging to the squadron, the time, condit

and prizes for which will be hereafter announced by the The Mayflower, Volunteer, Sachem, Alert, Priscilla

and the new Boston schooner Marguerite will join the fleet at Newport. William Emory Gardner and J. Montgomery Sears, of Boston, will be honerary guests of the fleet.

DEFEAT FOR BROOKLYN. The New-York nine defeated the Indianapolis team at the Polo Grounds yesterday after an unusually exciting game. About 4,000 people were present and the liveliest interest was manifested in each. Keefe pitched his seventeenth consecutive victory. Ward made a remarkable running catch in the last inning and prevented the visiting nine from tying, or pos-

sibly from winning the game. The New-York players had been going out in quick order up to the eighth inning, and the onlookers were as gloomy as the weather. In this inning the local players rallied at the bat and scoring three runs won the game. The score was as follows:

MAYOR HEWITT BEFORE THE GRAND JURY TESTIFYING TO ALLEGED LIBEL BY "THE PRESS"-NO INDICTMENT YET FOUND.

Mayor Hewitt was one of the earliest callers on th August Grand Jury, which began its session yesterday. He had been in consultation a few days before with Assistant District-Attorney Fitzgerald, who was reested to ascertain whether certain statements made "The Press," a daily newspaper of this city, were ufficient to form the basis for a criminal complaint against the managers of that paper. Mr. Fitzgerald apparently thought the matter worthy of the attention of the Grand Jury, for they had hardly retired to their room and organized before Mr. Hewitt was summoned as a witness. The statements which Mr. Hewitt considers libelious concern the dealings of Messrs. Cooper, Hewitt & Co. with their employes at their iron works at Ringwood, N. J. Various acts of oppression have been charged in articles published from day to day, and Mayor Hewitt has been exceedingly indignant. He has denied the statements vigorously, but no retraction has been made. The proprietor and managing editor of the paper are said to be the persons against whom complaint is specifically made. The Grand Jury did not find an indictment yesterday, but t was rumored that one might be found within a day

Judge Martine, in his charge to the Grand Jury, spoke of the necessity of protecting officials from false use, which might bring them into discredit, to the harm of the community. He made no allusion to any particular case, but said that the District-Attor any particular case, but said that the District Anney had business to lay before the Grand Jury, which it would be their duty to consider carefully.

The Mayor spent about an hour in the Grand Jury room. Both District Attorney Fellows and Assistant District Attorney Fitzgerald were with the Grand Jury as advisers. The Grand Jury adjourned for the day

A SERIOUS STABBING AFFRAY.

TWO YOUNG MEN WILL PROBABLY DIE FROM WOUNDS RECEIVED ON A FERRYBOAT.

What will probably prove a fatal stabbing affray, of which two brothers were the victims, occurred late on Sunday night on the ferryboat George Washington at Grand-st., Brooklyn. Among the people who had waited for the boat were Christian Schneider and his wife, of No. 65 Delancey-st., who had spent the even ing with friends in Ten Eyck-st., Brooklyn. Near them were Thomas and John Campbell, two young men, of No. 63 Pitt-st., who were returning from a picnic and was somewhat hilarious. Schneider took offence at their actions and glances at his wife and spoke to them At this moment the gate opened and as the pas sengers crowded together in getting on the boat Schneider was brought close to the brothers and he struck Thomas Campbell in the face. The assailed man struck back, and then Schneider drew a stout jackknife and plunged it into Campbell's abdomen, inflict ing a dangerous wound. He lunged at John Campbell, who rushed to his brother's aid, in the same fashlen, and wounded him similarly. The spectators seized him before he could do any more harm and he was

placed under arrest. The wounded men were speedily taken to the Eastern The wounded men were specially taken to the reserved postrict Hospital, but it is not likely that either will recover. Schneider was taken before Police Justice Nacher yesterday and was committed to Raymond street Jall without ball. He said that he used his knife in self defence.

TO HONOR THE "MANCHESTER MARTYRS." A meeting of the veterans of the Irish Republican Brotherhood was held yesterday afternoon in Haleyon Hall, Thirty-fifth-st. and Third-ave., to arrange for a fitting celebration of the anniversary of the execution of the "Manchester martyrs." It was announced

that Cooper Union had been hired, and that prominent speakers would deliver addresses. There are at pres ent more than 200 members of the Brotherhood, all of whom took part in the Fenian kebellion in Ireland in 1867.

MAYOR HEWITT'S ASPIRATIONS. PLANS THAT HE CANNOT CARRY OUT.

HE WOULD LIKE TO HELP THE POOR, BUT HE IS

NOT A CANDIDATE. Mayor Hewitt came back to the city yesterday after

having passed Sunday at Ringwood. A Tribune re-porter called his attention to the newspaper state ments regarding his candidacy for re-ele asked him if it was a fact that he was to be con sidered in the race for a second term.

"You want to know," Mr. Hewitt answered, "If am a candidate or not. Well, I am not. I don't want to be Mayor. I don't expect to be Mayor. I shall not be Mayor again if I can help it. But will be time enough to decline a nomination when it has been tendered to me. So far no one has asked me-no, I won't say that, because individuals have been to see me about it, but no political organization has asked me to be its candidate and it will be time enough for me to say what I will do when the occasion arises. I will say this, however; I have fell and I do feel that if I were strong enough I would like to be Mayor for two years more to finish up the business that has been started during my term. There are several things that I would like to see done that there is not time for this year. I have nearly five months left, but there is a great deal to do, and I am going to finish as many things as I can and start as many more good things as possible in that time.

"Take the small parks for instance. During my term we have started the Mulberry Park, Corlears Hook Park and the extension of the East River Park -that's three. I want to get five more of these small parks, and if the Board of Health and the Department of Parks will assist me I mean to have cight of these parks started and under way this year. We are not limited as to number, you know, although we can expend but \$1,000,000 a year, and if the Board of Street Opening will stay by me-they may not have the courage-I will have at least eight of these much-needed parks for the poor started before my term expires. I believe in small parks and I believe in taxing rich people to pay for them. These small parks are a necessity. Everywhere you go in the city, wherever there is a little puddle from the bursting of a water pipe or any other cause you will see the children flocking around it with their paddles Totals 2. 8 27 14 2 Totals 0 4 27 14 3 and sticks. It is a cry of nature. These parks

should supply a playground for the children.

"Another thing. If I were to remain in this office two years more I think I could convince the workingmen that I am their best friend. I know that I am. But they do not-not all of them. Some, a few, do, here and there in the city, and are willing to recognize it, but the larger number look upon me as at enemy. I am not. I am their friend and they will see it in time. I am for the rights of property, but I also believe in the rights of men. Now, if the ple could hear me say all this they would probably want me re-elected. And if, without any action or my part whatever, but leaving me free to go righ on with my work here as though no election was in progress, they should walk up to the polls and re-elect me, what could I do? I am not one of the kind to shirk a manifest duty.

"But I am not consulting politicians or in any way looking for a renomination, or even considering the question of accepting one. I will not get any. No ne wants to give me one. When it was offered me one wants to give me one. When it was observed to before I asked my Tammany friends what they expected to get. They answered 'nothing,' but I knew that they did and I told them so, and that they would be greatly disappointed in me and would not get anything. They said that they were satisfied and maybe they are. But I see that some of the papers charge that I promised to appoint Charley Allen a Commissioner of Accounts and have in other ways broken faith with Tammany. It is false."

#### ODORS FROM THE GAS WORKS.

THEY ARE OFFENSIVE BUT NOT DANGEROUS-COMPLAINTS TO THE HEALTH BOARD.

The offensive odors from the Equitable Gas Ligh Company's works at First-ave. and Thirty-ninth-st. have been the cause of complaints to the Health Board recently. Commissioner Bryant told a Tribune reporter yesterday that plans for abating the nuisance were under consideration and that some action probably might be expected soon. "Go to Mr. Martin, the chemist of the department," Dr. Bryant said. "He knows all about the matter."

"The bad smells come from the purifying boxes," said the chemist. "Iron mixed with sawdust is placed in the boxes through which the gas is passed The sawdust is used only to keep the small pieces of iron apart, and the mixture is called iron-sponge As the gas passes through the sponge the ir sorbs the sulphur compounds in the gas. After the once has been in use for a week or ten days it has absorbed so much sulphur that it falls to purify the gas. Then the boxes must be broken open and refilled with a fresh supply of the iron-sponge. old sponge is spread out on the ground to cool and become oxygenized, after which it is ready for use It is after the boxes are broken open and while the iron-sponge is exposed to the air that the while the fron-sponge is exposed to the air that the offensive odors are thrown off. The odor is not poisonous. The Equitable Gas Light Company is the only company in this city that uses fron-sponge to purify the gas. Other companies use the lime process, which is even more disagreeable, but their works fortunately are not near houses except those occupied by their own workmen.

MR. BEEKMAN THINKS THE PAYMENTS RIGHT. Corporation Counsel Beekman yesterday sent a lengthy opinion to Controller Myers in answer to questions asked by the latter regarding allowances nade by the Aqueduct Commissioners to the contractors for tunnel excavations outside of certain lines. The questions involved the legality of the payments made by the Controller to the contractors upon the basis of the "typical cross section" adopted December 19, 1887, by the Aqueduct Commissi and whether such payments should be continued.

After exhaustively defining the powers and duties

of the Commissioners and their acts done in pursuance of law, Mr. Beekman concludes that payments upon estimates of the chief engineer, certified as co rect by the Aqueduct Commissioners, are lawful. The question of the adoption of the so-called typical cross-section is shown to be unimportant. In so far as the acts of the Commissioners are within the scope of the power conferred upon them by law, and are performed in good faith, their jurisdiction and authority cannot be questioned.

MORE FRESH AIR FOR THE BABIES. The barge William H. Morton took about 800 mothers, bables, and young children for a sail down the Sound The excursion was the sixth for the season even under the auspices of the Sanitarium for Hebrer and the total expense was defrayed by Sterr Brothers, the dry goods merchants. The have been much appreciated was proved by the fact tha there were more applicants than there was room for, and President Nathan, of the Hebrew Sanitarium, who took the tickets on the gangway, had to reject some burly boys who were better able to bear the city's heat than one, wo and three year old brothers and sisters. There was a good deal of toleration shown, however, and wherever a mother with a puny, pale-faced baby was desirous of going. she was handed a ticket whether Hebrew or Christian. Hezekiah Kohn, the treasurer, also distributed a number of free tickets to Rockaway to some needy mothers. barge salled shortly after 10 o'clock and went as far as Stamford, returning at 6 o'clock. There was plenty of good catables on board, and the sall was much enjoyed.

THE BODY OF BROTHER ROBERT BROUGHT HOME The body of Brother Robert, of the Third Order of reenlawn Station of the Long Island Railroad, was brought yesterday to the College of St. Francis, Baltic-st., Brooklyn, where he lived. His name was Martnew Flood, and he was a native of Dublin. He bined the order four years ago, and has since then taught one of the classes in the parochial school of et. Mary, Star of the Sea, Curtest. A scientification mass will be celebrated in the chapel of St. Francis College to-day. The burial will be in Holy Cross Cemetery, Flatbush.

EXPELLED FROM A ROWING CLUB.

The Metropolitan Rowing Club met at the Mount Morris Hotel last night. President Julius Marr presided. special committee appointed to consider the case of Goep-fert, charged with selling a double race of the club by betting against his crew, made its report, and in accord ance therewith the club voted to expet Goepfer. The committee stated that it could find no proof of th charge of selling the race, but it found him guilty of un gentlemanly conduct and persistent neglect of duty, for which the expulsion was recommended.

Coroner Levy decided last week that Julius Willis died from natural causes, but yesterday Mr. O'Dwyer, the family's lawyer, asked him to investigate the case further, as he believes that Mr. Willis died from illreatment at Ward's Island. Coroner Levy will take up the case again.

BROOKLYN.

Corporation Counsel Jenks has been asked by Police Commissioner Bell for an opinion as to whether the truckmen are bound to obey City Works Com-missioner Adams in moving from the stands they have occupied to the new stand in Canton-st., and on what department devolves the duty of enforcing the order.

department devoives the duty of enforcing the order.

Mrs. Catharine L. Hodges, widow of ex-Sheriff Andrew B. Hodges, and mother of ex-Assemblyman Alfred Hodges, died yesterday at No. 496 Bedford-ave., at the age of seventy. She leaves two children. The funeral will take place this evening.

A horse which exhibited symptoms of hydrophobia was shot in the stable of the Smith Trucking Com-pany at Canton-st. and Park-ave. yesterday. It was bitten by a dog which appeared rabid about five weeks ago.

DIED AT ONE HUNDRED AND FOUR. Thomas McCaffrey died on Friday, age one hundred and four, in the Home for the Aged of the Little sisters of the Poor, No. 207 East Seventleth-st. born in Ireland, where he spent the greater part of his life. He was always a strong champion of Ireland's liberties and took an active part in many of the most stirring events which have happened in that country during the century. About four years ago he became childish and was taken to the Home where he died. There is another cente-narian at the Home, John Downey, who was one hundred and one years old last September, and who still retains the use of all his faculties.

A STATEN ISLAND ELECTRICIAN MISSING. Henry De Dolter, an electrician, living at New Brighton, S. I., has been missing for a week. 29 he left home to come to his office at No. 63 Wallst. to get some papers, but he did not arrive and has not been seen since. His friends think that he has wandered off while temporarily insane, as he has for some time been engaged upon an intricate electrical problem, to the solution of which he devoted all his time and energies. After a fruitless search for him in places where he would probably have gone had this been the case, Mr. De Dolter's friends reported his disappearance to the police. The description given was that of a Frenchman, forty-five years old, fair complexion, brown hair and eyes, and about five feet
